-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 28 January 2005.
- 2a) ☐ This action is FINAL. 2b) ☒ This action is non-final.

- 6) ☐ Other: _____.

Election/Restrictions

1. Applicant's election with traverse of Group I, species A, sub-species AA in the reply filed on January 28, 2005 is acknowledged. The traversal is on the ground(s) that examination of all the groups and embodiments would not place an undue burden on the Examiner. This is not found persuasive because examination of 3 inventions and all the variations of those inventions would be an undue burden on the examiner.

The requirement is still deemed proper and is therefore made FINAL.

2. Claims 5-25 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected Species.

Drawings

3. Figures 15A and 15B should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

Art Unit: 3683

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Sweet.

Re claim 1, Sweet discloses a three-way solenoid valve, comprising: a first pilot (18) valve, a second pilot valve (19), an inlet port (14), an outlet port (15), and an exhaust port (46), wherein: said inlet port is connected to said outlet port and said exhaust port is closed when both said first pilot valve and said second pilot valve are de-energized', said inlet port, said outlet port, and said exhaust port are closed when said first pilot valve is energized and said second pilot valve is de-energized; and said outlet port is connected to said exhaust port and said inlet port is closed when said first pilot valve is de-energized and said second pilot valve is energized.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Cameron, Mahorney, and Bento teach three way solenoid valves comprising a first pilot valve, a second pilot valve, an inlet port, an outlet port and an exhaust port.
